

Hydrating Cream

with CPTG essential oils

lavender, jasmine, geranium, frankincense

Product Description

The intensive moisture your skin has been waiting for, dōTERRA's Hydrating Cream is packed with emollient-rich ingredients and effective anti-aging combatants for smooth and luxuriously-hydrated skin. Its creamy formula provides an immediate burst of active moisture without leaving an oily residue. Carefully chosen ingredients are designed to assist regeneration of mature skin, as well as helping to reduce the visible signs of aging due to both natural and environmental causes. dōTERRA Hydrating Cream aids in strengthen the dermis and restoring balance to the skin for a more youthful and glowing appearance. Perfect for use day or night.

Concept

As we age, our skin's ability to regenerate and produce essential components for a healthy and youthful complexion are greatly diminished. Mature skin becomes thin and the amount of connective tissue becomes more obsolete over time. Ducts that provide essential moisture to the skin can also become inactive, which causes the skin to become dry and appear weathered. Additionally, dry climates and other environmental factors can contribute to the aging process and the appearance of dry, dull skin.

dōTERRA's Hydrating Cream assists your skin's ability to overcome the effects of aging by delivering quality hydrating agents to the dermis. It helps restore the skin's natural moisture-binding and retaining capacity for proper water levels of skin cells while providing a highly effective and long-lasting hydrating effect. Over time and with daily use, this creamy formula helps replenish skins own vital properties, so it is softer, smoother and more naturally beautiful.

Primary Benefits

- Assists natural components of the skin in their regeneration process
- Helps reduce the appearance of fine lines and wrinkles
- Helps restore moisture content in the skin leaving skin feeling supple and smooth
- Penetrates the skin evenly and effectively to allow for long-lasting moisture balance for protection against the environment and other external factors

What makes this product unique?

- Certified Pure Therapeutic Grade® essential oils that support healthy skin
- Perfectly blended natural extracts and emollient ingredients for incredible moisturization

- Formulated with dōTERRA's "NONE OF THE BAD" ingredient philosophy, meaning it does not contain artificial colors, diethanolamine (DEA), formaldehyde donors, parabens, phthalates, propylene glycol, sodium laureth sulfate (SLES), sodium laurel sulfate (SLS), toluene, or triethanolamine (TEA). Product not tested on animals

Key Ingredients

- Milk Peptide Complex™ or MPC is made up of activated natural signaling molecules that help promote regeneration of connective tissue, enhancing skin's overall structure and appearance. MPC is a derivative of milk, which has been used since ancient times to soothe skin and improve moisture binding capacity. It also helps to plump and smooth the skin.
- Cocoa seed butter is a nutrient-rich emollient that helps rehydrate dry and mature skin. It is also a protective conditioning agent which supports the skin barrier
- Lavender has many benefits for the skin - calming and cellular biogenesis properties help the skin to repair and regenerate and assists in balancing pH levels
- Jasmine and Geranium have traditionally been used for their skin benefits
- Frankincense has cytophylactic properties which help in cellular repair and renewal
- Phellodendron bark helps reduce irritation in the skin
- Erythritol enhances the overall water holding capacity of the cell, which allows for the skin to retain hydration
- Algae and *Artemisia vulgaris* extracts are soothing and reduce redness in skin
- Vitamin Blend (*tocopherol vitamin E, stabilized vitamin A*) supports overall skin health

Who should use this product?

dōTERRA Hydrating Cream should be used by anyone who wants more youthful, hydrated skin.
