PRODUCT DESCRIPTION

Enjoy a spa-like facial treatment in the comfort of your home with the Reveal Facial System—a carefully formulated, two-step process that gives your skin an amazing, youthful glow.

Step 1: Refining Polish—purify and cleanse with tiny polishing beads, botanical enzymes, and Wild Orange and Lime essential oils as you exfoliate away dead skin cells and impurities, promote healthy circulation, prompt collagen and other skin-saving substances, and increase your skin's ability to absorb important nutrients and moisture with a luxurious, light massage.

Step 2: Peptide Activator—support and strengthen as you deliver the vital nutrients and peptides that your skin needs.

DIRECTIONS FOR USE

- Use once or twice a week, or as needed, morning or night.
- Wash face thoroughly with a dōTERRA face wash.
- Place a thin layer of Step 1: Refining Polish on damp, freshly cleaned skin.
- Massage gently in upward circular motions for 1 to 2 minutes. Do not wash off until Step 2 is complete.
- Place a thin layer of Step 2: Peptide Activator onto the skin over Step 1: Refining Polish to activate the polishing beads. Continue to massage for an additional 1 to 2 minutes. This step may cause slight foaming and a warm, tingling sensation.
- Rinse off with warm water or a damp towel.
- Proceed with your regular facial routine of toner, serum, and moisturizer. For best results, use the Reveal Facial System in conjunction with dōTERRA Essential Skin Care products.

CAUTIONS

If skin irritation occurs, discontinue use.
